1. Fold an 8 1/2 x 11 paper in half vertically to make a crease.
2. Unfold the paper and fold each of the top corners down into the center crease.
3. Fold the top edges down again into the center crease.
4. Fold the plane in half vertically, so the wings are on the outside.
5. Fold the wings down, matching the top edges up with the bottom edge of the body.
6. Add tape to the body so it holds together (optional).
7. Watch it fly! Have a race with friends to see whose plane can travel the fastest and farthest.
